AROUND *the* TOWNSHIP

Congressman Albert E. Carter's return to Oakland on Monday from Washington, D. C., bringing the intelligence that Niles is included among five towns in the district where construction of a new postoffice building has been temporarily approved with action probable at the next session of congress, has started speculation rife locally as to what probable site for the new $70,000 structure will be chosen.

Just off-hand, we would think that a pretentious building of such proportions probably best would enhance First Street.

The township is further to share in federal funds, as the congressman reported approval of a $34,364 WPA project for an Irvington school building.

Thanks, Uncle Sam.

The spectacle of a gigantic Rotary wheel, going spinning around the world bearing the name of Niles, California, for all and sundry to see may easily be conjured up in anyone's mind.

For, a picture of the wheel, with the Niles club members grouped in front, has been sent to Chicago Rotary headquarters as suggested material for Paul Teetor's "Around the World With Rotary".

Erection of the wheel, which graces the entrance to the Belvoir Hotel here, is termed one of the outstanding pieces of club service in the district by Governor Allison Ware, District 105, Rotary International.

Only seven months old, the Niles club is commended by organization officials for having increased its membership 37.-50% during that short time. And, as a consequence of this and other feats—not to overlook the winning of the world's championship golf tournament trophy by Dr. T. C. Wilson and George Smith, comprising the Niles club team—the club is being urged to enter Rotary International's "Club of the Year" contest.

There's recognition—with a bang!

The world's meanest thief hasn't been caught yet. On Saturday evening following mission services some unknown intruder broke a small window, entered the St. Edward's Church and took away an undetermined amount of money out of the church poor boxes.

Last Friday's Register obtained immediate results for Mrs. J. E. Thane and the Country Club of Washington Township history compilation committee in the form of a telephone call from San Francisco on Monday proffering information on the naming of Washington Township. The mail on Wednesday brought a prized book, loaned for the gleaning of authentic data by the committee.

Favor Resuscitator Purchase For Use By Fire Department

NILES—Although definite action was delayed until a meeting of the board of directors scheduled for July 12, the Niles Chamber of Commerce expressed approval of the move to purchase an inhalator for the Niles Fire Department at its luncheon meeting Monday at the Florence Restaurant. This was the last meeting until September 12.

Chief Tony Alves suggested that the chamber endorse a card party or dance to raise the $300 or $400 to purchase the inhalator. Vice-President George Bonde, presiding in the absence of President W. B. Kirk voiced approval of the plan to secure the inhalator but favored popular subscription instead of a benefit party.

Assistant Chief E. E. Dias said that inasmuch as Niles Canyon playgrounds were being advertised for recreational facilities, protection should be furnished in the form of an inhalator. He suggested that owners of picnic grounds be approached to assist with raising funds.

F. V. Jones said he thought the Chamber of Commerce should endorse the project, which will probably be done at the meeting of the board of directors.

An initiative constitutional amendment creating the California Traffic Safety Commission was presented but action was deferred until further information regarding the proposed amendment is secured.

SPORTSMEN'S CLUB STAGE BARBECUE AT LINDA VISTA PARK

MISSION SAN JOSE—In spite of the fact that loud speakers which had been arranged for a prolonged enjoyment of the Schmeling-Lewis fight were all but in vain, a good time was had by all of the 80 present at the barbecue given by the Washington Township Sportsmen's Club at Linda Vista Park, Mission San Jose Thursday night, June 23.

Among those present were Macon Smith, president of District Council No. 3; William Bostwick, secretary of the Associated Sportsmen of California; C. E. Wilson, secretary treasurer of the District Council No. 3 and Supervisor George Hellwig. A. Soares and M. Christian of the Board of Equalization were guests of Manuel Bernardo.

Fred Rogers, George Mathiesen and Pete Rose presided at the barbecue pits. Others who helped with the beans and fixings were President Allan Walton, Pete Nunes, Pete Rose, Wilbur Bettencourt and Manuel Vierra.

The program consisted of talks by visitors and piano selections by Dallas Paul. The next meeting will be held on July 6, at which time Manuel Soito will be the speaker.

Expect New Church Will Be Ready For Christmas Service

NILES—Christmas services in the new church is the goal of the trustees of the Niles Congregational Church who gave final approval to architect's drawings at a meeting at the Hotel Belvoir on Monday night.

Nearly $5,000 has been raised in popular subscriptions, pledges and materials to add to the $13,000 in insurance. If the total $20,000 necessary is not subscribed a loan will be arranged through the church board, according to Fred Duffie, president of the board of trustees.

Plans have been drawn by George P. Simonds, Hayward architect. They call for a central auditorium which will seat approximately 125, recreation room with stage, primary and intermediate departments, guild room and kitchen, pastor's study and a six-room parsonage. The architecture is Spanish with stucco exterior and composition roof. A patio will separate the parsonage from the church proper, the two units also to be divided by a fire wall.

More Than Hundred Taking Active Part In Music Rehearsal

Adoption of by-laws, plans for a membership dinner meeting in September and a decision to supplement the study of Handel's Messiah with lighter and less difficult music featured the business session of the Southern Alameda County Musical Association at Pleasanton Tuesday night.

It was also decided to hold rehearsals of chorus and orchestra separately for a while. John Kimber, president, will rehearse the orchestra and Harry Tripp of Pleasanton, the chorus. R. M. Coughlin, director of music in the elementary schools at Hayward, was appointed to secure additional music which will be used for half of the chorus practice period, the remaining time to be spent on the Messiah.

The next rehearsal of chorus and orchestra will be held at Pleasanton on Tuesday night, July 5, at 7:30 o'clock. The band will rehearse at Livermore on July 11. Practice meetings will continue to be held during the Summer.

Mrs. Glen V. Pierce was elected to the board of governors to represent Pleasanton. Each of the four communities, Hayward, Washington Township, Pleasanton and Livermore, will be represented by six governors each.

Kimber states that more than 60 have signified their desire to become a part of the chorus, 47 to play wind instruments and 11, string instruments. It is hoped that several hundred will be enrolled when the vacation period has passed.

Electric directional signs recently installed do not furnish sufficient illumination to off-set the traffic hazard at this point, chamber representatives claim. Sanitary Plant At Decoto Expected To Be Built Soon

DECOTO—Reduction of $28,000 in the $42,000 estimated cost of a sanitary plant at Decoto is sought by members of the commission who are meeting with the district engineer, John Mancini, tonight, following a tour of inspection of nearby sanitary systems.

According to J. P. Calderia, president of the sanitary board, satisfactory sanitary units are established at Dixon, Davis, Galt and other nearby communities at costs ranging from $8,000 to $50,000. The latter figure relates to the Agricultural College plant at Davis, a much more elaborate arrangement than is felt necessary at Decoto, Calderia says.

When the sanitary district was established by an almost 100 per cent vote several years ago, a bond issue of $56,000 was passed and $42,000 was the estimated cost of an adequate sewerage disposal plant, according to Engineer Mancini and representatives of the Alameda County Mosquito Abatement District who assisted with making surveys.

A cut in federal aid necessitated postponement of the project and a few days ago members of the sanitary commission, Chairman Calderia, Secretary Charles Brown, Director Frank Thomas and A. Amaral of the Chamber of Commerce visited plants at the above named communities.

By omitting pipes along streets without houses and cutting down plans in other ways, the commission hopes to get a new estimate on the project which will make it possible to proceed at once with money on hand and with possible WPA aid.

C.'s are forming their own league, including Alameda, Hayward, Magellan and Centerville. The first game will be played at the Hayward soft ball court at the Bret Harte school on July 8.

THIS INDEPENDENCE DAY

When a little nation of less than two and one-half million souls bravely shook its fist in the face of its parent country 162 years ago, these United States gave the world first proof America had come of age.

From a fledgling among the nations of the earth, this nation more than a century and a half later finds itself the foremost ranking power in the world, favored above all others in the vastness of its resources, in the sturdiness of its democratic traditions, in its freedom from the ills which are today wracking nations abroad.

Endowed as America is with all these blessings, the celebration of this Fourth of July turns all thoughts upon one attribute in particular—the ideal of government which had its flowering in 1776.

The vivid declaration of principles set forth by Jefferson, and speedily adopted by Congress, struck the Old World with startling, explosive force. There was boldness, confidence, and revolutionary fervor in the credo of the young nation which dared to affirm that a government exists for the happiness of the people, that it derives its powers not from on high, nor from the whim of a monarch, but solely from the consent of the governed.

Since that memorable day in our history, governments elsewhere have risen to power and fallen, revolutions have shattered monarchies and established worse tyrannies in their stead, but the declaration which set America on its course of destiny over a century and a half ago is the same declaration to which America voices allegiance today.

The high ideals of government that document set forth are not eternal. They are not imperishable. They will survive only so long as they are guarded and cherished. Let this Independence Day be a significant and worthy reminder of that fact to all of us!

DEMOCRACY AND A *Free Press* ARE INSEPARABLE

FREE GOVERNMENT cannot perish while a free press survives; on the other hand its days are numbered when freedom of the press disappears. When the Constitution of the United States was in process of adoption after the American Revolution, the people demanded that it guarantee freedom of the press, freedom of speech, and freedom of worship. First hand experience with despotism in Europe had taught them that liberty is an illusion unless people have the right to voice and print their own opinion, the right to nominate and elect candidates in opposition to the government, the right to pursue their own plans within the limits of the law. They knew that democracy and freedom of the press go hand in hand, one and inseparable. Freedom of the American press today is the first line of defense established for the security of free government in America. The welfare and independence of your newspaper is the welfare and independence of your nation.
